

# What is a microhabitat?

Science

Miss Simkin

A \_\_\_\_\_ is a \_\_\_\_\_ habitat that is different to the surrounding environment.

## ***Follow the instructions:***

1. Ask your parent or carer to cut the top and bottom off a plastic bottle for you.
2. Collect sticks, leaves and bark.
3. Fill the plastic tube with your materials.
4. Choose a good spot for your microhabitat.
